Faculty of Electrical and Computer Engineering

The Institute of Electromechanical and Electronic Design offers a project position as

**Research Associate / Postdoc (m/f/x)**
(subject to personal qualification employees are remunerated according to salary group E 13 TV-L)

starting as soon as possible. The position is limited until March 31, 2025. The period of employment is governed by § 2 (2) Fixed Term Research Contracts Act (Wissenschaftszeitvertragsgesetz - WissZeitVG).

**Tasks:** The Institute's research and teaching activities include electronic design automation through the development of algorithms, methods and software tools. The focus of your work will be the development of methods and data formats for the design of distributed manufactured systems (split manufacturing) as part of a research project. The main tasks to be solved in a team are: Realization of a modular design flow for such systems by configuration and combination of existing and new design tools; prototypical development of specific design tools and data formats as parts of this flow; Preparation of a concept for a multi-process design kit (MPDK) and associated design rules.

**Requirements:**
- very good to good university and, if applicable, PhD degree in electrical engineering, computer science or a comparable discipline
- in-depth knowledge of microelectronic system design
- programming skills
- good proficiency in written and spoken English
- high degree of independence and personal responsibility
- structured and team-oriented way of working.

Applications from women are particularly welcome. The same applies to people with disabilities.

Please submit your comprehensive application including the usual documents by June 15, 2022 (stamped arrival date of the university central mail service applies) preferably via the TU Dresden SecureMail Portal [https://securemail.tu-dresden.de](https://securemail.tu-dresden.de) by sending it as a single PDF document to andreas.krinke@tu-dresden.de or to: TU Dresden, Fakultät Elektrotechnik und Informationstechnik, Institut für Feinwerktechnik und Elektronik-Design, Herrn Prof. Jens Lienig, Helmholtzstr. 10, 01069 Dresden. Please submit copies only, as your application will not be returned to you. Expenses incurred in attending interviews cannot be reimbursed.
