The Institute of Clinical Psychology and Psychotherapy, Chair of Clinical Psychology and Behavioral Neuroscience offers as of 1st October 2019 a position as

Research Associate

(Subject to personal qualification employees are remunerated according to salary group E 13 TV-L)

for initially 2 years (prolongation possible). The period of employment is governed by the Fixed Term Research Contracts Act (Wissenschaftszeitvertragsgesetz - WissZeitVG). The position aims at obtaining further academic qualification. Balancing family and career is an important issue. The post is basically suitable for candidates seeking part-time employment.

The chair investigates the neural basics of socio-affective and -cognitive processes, their alterations in psychopathology and plasticity through psychotherapeutic intervention. As one of Germany's excellence universities, the TU Dresden offers outstanding research infrastructure with the Neuroimaging Center (3 Tesla MRI, MRI-compatible 64-channel EEG- and peripheral physiology-systems, TMS, Multicomputer-Lab for behavioral assessments), the Center for Clinical Epidemiology and Longitudinal Studies and the Outpatient Clinic.

Tasks: study coordination; clinical-diagnostic interviews and experimental/neuroscientific studies; supervision of students; data analysis; scientific publishing; contribution to planning and execution of courses in the Master program Clinical Psychology and Psychotherapy and participation in academic services and self-administration. Own research and publication initiatives are welcome and explicitly supported.

Requirements: university and PhD degree in psychology; publications in international peer-reviewed journals; experience in neuroscientific methodology (fMRI, EEG, fNIRS); interest in clinical-psychological and psychotherapy research; substantial expertise in statistics, experimental psychology and clinical diagnostics; good knowledge of English, knowledge of German is advantageous; very good communication, organization and teamwork skills; working hour flexibility and professional handling of patient contacts; expertise in or willingness to learn at least one programming language (e.g. MATLAB). Started/Advanced training in psychotherapy (CBT) is advantageous.

For questions please contact Prof. Dr. Philipp Kanske (philipp.kanske@tu-dresden.de). Applications from women are particularly welcome. The same applies to people with disabilities.

Please send your complete application (CV, study documents etc.) before 07.08.2019 (stamped arrival date of the university central mail service applies) via the TU Dresden SecureMail Portal https://securemail.tu-dresden.de by sending it as a single pdf document to romane.raabe@tu-dresden.de or via post to TU Dresden, Fakultät Psychologie, Institut für Klinische Psychologie und Psychotherapie, Professur für Klinische Psychologie und Behaviorale Neurowissenschaft, Herrn Prof. Dr. Philipp Kanske, Helmholtzstr. 10, 01069 Dresden. Please submit copies only, as your application will not be returned to you. Expenses incurred in attending interviews cannot be reimbursed.
