

TUD Dresden University of Technology, as a University of Excellence, is one of the leading and most dynamic research institutions in the country. For TUD diversity is an essential feature and a quality criterion of an excellent university. Accordingly, we welcome all applicants who would like to commit themselves, their achievements and productivity to the success of the whole institution.

At the **Faculty of Computer Science, Institute of Artificial Intelligence**, the **Chair of Machine Learning for Computer Vision** offers a position as

**Research Associate / PhD Student (m/f/x)
Machine Learning**

(subject to personal qualification employees are remunerated according to salary group E 13 TV-L)

starting at the **earliest possible date**. The position is limited to three years. The period of employment is governed by the Fixed Term Research Contracts Act (Wissenschaftszeitvertragsgesetz – WissZeitVG). The position offers the chance to obtain further academic qualification (usually PhD).

Tasks:

- independent, curiosity-driven basic scientific research in one of the following areas:
 - Machine Learning and Image Analysis
 - Machine Learning and Combinatorial Optimization
 - Machine Learning and Automated Theorem Proving
- publication of research results in leading journals and at top conferences
- scientific teaching activities
- academic self-administration

Requirements:

- excellent university degree in mathematics, computer science, or physics
- mathematical maturity and a strong interest in basic research using rigorous mathematical methods
- very good command of written and spoken English

We offer:

- excellent supervision in an outstanding scientific environment
- unique opportunities for collaboration with local, national, and international partners
- IT equipment tailored to individual needs
- a modern working environment in a city of science and culture, surrounded by a unique landscape

TUD strives to employ more women in academia and research. We therefore expressly encourage women to apply. The university is a family-friendly university. We welcome applications from candidates with disabilities. If multiple candidates prove to be equally qualified, those with disabilities or with equivalent status pursuant to the German Social Code IX (SGB IX) will receive priority for employment.

Application: Please submit your detailed application with the usual documents by **June 1, 2026** (stamped arrival date of the university central mail service or the time stamp on the email server of TUD applies), preferably via the TUD SecureMail Portal <https://securemail.tu-dresden.de> by sending it as a single pdf file to mlcv@tu-dresden.de or to:

**TU Dresden, Chair of Machine Learning for Computer Vision, Prof. Dr. Bjoern Andres,
Helmholtzstr. 10, 01069 Dresden, Germany.**

Please submit copies only, as your application will not be returned to you. Expenses incurred in attending interviews cannot be reimbursed.

TUD is a founding partner in the DRESDEN-
concept alliance.
